Interview

IGATE_INTERVIEWS_FRESHERS

The drive was located:- Bangalore (whitefiled)

Feb 2016

Students : 600+ students present from all across North India.

*APTITUDE TEST:

The aptitude test for Capgemini is very easy, any1 can cleared with even 0 preparation. there is no any negative marking, its a possitive point & cut off is always high, and there is ample of time available to solve these questions.

20 questions = verbal reasoning
15 questions = quant
15 questions = logical reasoning
total time= 60 minutes

Focus on :-
 - Profit and Loss.
- Probability.
- Permutation and combination.
- Ages.
- Time and Work.

2) TECHNICAL ROUND:
 introduce yourself and asked some questions on my project.

Then he ask basic questions on Oops concepts like Inheritance, Encapsulation and
in SQL- difference between drop, delete and truncate.

3) HR ROUND:
HR round is just a formality. Just be confidense

CGI_INTERVIEW_FRESHERS
Location :- Bangalore
Date :- Feb 2016

++++++++++++++
Total Rounds
- Aptitude.
- GD.
- Technical.
- HR.

In aptitude,

, it has 25 questions in 30 min, include logical questions and verbal like paragraph, missing word etc. in quants thr have 4 to 5 questions on (profit and loss, ratios, time and work, percentage, partnership, trains and boats, probability, etc). Here around 400+ attended in that 78 cleared.

If you clear apti, listen carefully PPT and note done in 1 sheet which will help you further seriously.

Next is GD.
++++++++++

They asked us to tell any topic after that they will take from that. Example, I told Indian Companies vs MNC Companies. So they told to speak Private Companies vs Govt Companies. If your supporting to any 1 stick to same don't support both. Just speak don't bother about grammar sentences etc. In GD, from our batch all are selected and over all 50 cleared.

Next technical interview.
 basic questions related to branch, ask favourite subject, and so they will ask 4 programs on C language (Print your name, Factorial, Reverse number and triangle pattern to print). I am good in C, so I wrote all programs.

Here 40 cleared.

Next **HR round** out of 40 30 cleared.
++++++++++++++++++++++++++++

Full questions on personal like,

- Tell about urself?

- Why this company?

- Why should I hire you?

- What do you like in our company. Compare to other companies?

- Why IT field?

- What do you know about CGI?

- They ask by seeing your resume? Etc.

Be confident in HR and be bold.

All the best guys. Never lose hopes, always keep preparing, one day that hard work give result.

Hope for the best. Bye.

CTS OFF CAMPUS DRIVE

Location :- ANNA UNIV
Candidates :- 3000+

Total 4 rounds overthr

1. Group discussion.
2. Aptitude(Verbal include Logical).
3. Technical interview.
4. HR interview.

In group discussion wasn't tough as expected. It was alike extempore, and out of 30 students from our batch 24 were selected for 2nd round.

In Aptitude round ,divided by two sections Verbal and Logical. Good news is that no questions from quants is asked. Verbal section consists of 35 questions and logical consists of 20 questions, total of 55 minutes were allotted. It was quite easy.

after result only 800 students cleared this round.

Next day i got a call for technical interview,

Good morning, sir.
Good morning, Wait for a while I'll take a look at your resume.

HR: Being an ECE student why IT profession?
ME: Said good things about CTS.

HR: Tell me something about C as well C++.
ME: Said the differences b/w them and also their merits and demerits.

HR: Tell me something about concepts of C++ like any concepts well you know.
ME: Explained.
HR: What is Oops concept, including with
polymorphism,inheritance,abstraction,encapsulation.
HR: Just asked basic JAVA & .NET but not mandatory?
ME: NO sir, i dont have knowledge

HR: Thank you, please wait for lobby, result ll b announce very soon.
ME: Thanks alot sir :)

Results were announced after 15 mins and I was selected for HR round.

HR: Tell me something about yourself?
ME: Said.

HR: Why should I hire you?

I replied and Just sked some common HR questions.

==================
Freshers - TR interview questions @Accenture
Hi Folks,

Total Candidates :- 792 students appeared in online exam,
it consists of three sections-
From 25 Questions in Verbal ,
From 15th questions in Analytical

Total there was 55 Questions and the limit was 65 minutes.

result were announced 361 students were cleared the test, including me.they have taken the mandatory documents 4 verification(like 10th & 12th semesters marksheets, govt id xerox)and we were asked to fill the employment form. The interview started nxt day morning.We were taken in a grp of 5..they have marked our positions.im in the 1st position, there were 2 interviewers(HR).we said good morning and took the respective seats.then they said me 2 start the introduction within 1 min, as im in the first position i was asked 2 tell 1st.after that they have given us one topic 2 discuss among ourselves which was more like a GD.our topic was Day-Dreaming.i initiated the discussion & finished also.other peoples are also pointed out their thoughts.then they asked us individually to say Y you want 2 join Accenture in a Single word. I said respect for the individuals.others said,dream company like that.then after the handshake we were asked 2 leave..Rsults came an the evening and only 119 students were selected and luckily my name is there in the list.

Guys Frankly saying they ll not check your technical ability maybe maximum project u have done that's all..they are looking 4 candidates who has good communications skills & who is confident enough to handel stress situations. So be confident, have a friendly smile in your face all the time, and be interactive. You will also get plcd.

I am a fresher. Sharing the questions I faced at HR interview - Accenture.

1. Tell me something about yourself.
2. Why do u want 2 work at Accenture?
3. Wt do u know about Accenture?
4. Tell us your to strengths & weakness. Give examples.
5. y did your score comparatively less marks in Class 12th?
6. Rate your communications skills on a scale of 1-10.
7. Will you be happy 2 relocate, if required?
8. Are u comfortable working late nights, if project demands?
9. Do you know anyone who works for accenture?
10. What qualities would u like 2 see in ur boss?
11. What would u do if you are not hired today?
12. How mch salary do u expect?
13. Would u like 2 ask us anything?

I hope it ll better 2 help 2 all of you guys.

Thanks

Tech_Mahindra_Placement_Pattern (Bangalore)

===============================

It was a referral drive I was referred by an employee of Tech Mahindra.

The interview included four processes which had online Aptitude, reasoning and English, essay writing, technical interview and HR.

The online written was quite easy but a bit lengthy had to manage with time. I would suggest to attend Aptitude first since it was very easy so you could just finish it with 12-15 mins at max. Then go for reasoning for which you need to a bit sharp the level was average and even English is something which needs to be done calmly. You can move to any section at any time and there was no negative marking. Attend every question.

If time does not permit in the last five minutes just go on marking the one you feel is correct even if you are not sure about it. After you submit, you will get the result there itself on the screen and if you clear it you will be redirected to another essay test of 10 mins where you need to write an essay on a given topic that will displayed on your screen within 1200 words. After that there was a technical interview wherein they asked questions from my resume regarding the programming skills SQL database, regarding my flexibility to work on different domains and all. About project also.

HR was also good and amicable. They asked few managerial questions and few from my resume. They said that will be sending a confirmation mail once their entire process gets completed and only if the candidate gets a. 1, 2 or 3 star based on the profile evaluation at Tech Mahindra. Waiting for the result on a positive note.

#Technical

Technical Interview Questions:

1.Tell me types of integration testing.

2.Diff btw RAM vs ROM?

3.What do you understand by multi-threading and multi-tasking?

4.What is the term normalization.

5.What is the difference between request processor and request dispatcher?

6.Describe the difference between trigger and stored procedure.

7.What are the types of networks?

8.What is inheritance?

9.Describe the difference btw Array and Array list?

==============

Noida (12march 2016)

First of all there was written test 130 questions 80 minutes.

Questions were of average level. The only thing is to manage time and maintain speed with accuracy as there is also the sectional cutoff and overall cutoff is also high.

From about 250 students only 60 cleared the written test.

Next is the essay round which is also a elimination round. Very simple and random topics were given. Mine was "politicians should be educated or not". They just check grammatical mistakes. So please use correct sentences and use good vocab. About 30 students cleared the essay round.

I'm IT. Student.

Technical Interview:

Interviewer was friendly.

Q. Tell me about yourself?
Told nicely.

Q. How was the aptitude test?
Told.

Q. How was the level of the questions?
Said average.

Q. Which section do you like the most?
I said I liked the quant most.

Q. What was your project.
Told about the project.

Q. Asked about how I used all the functionality in my project.

Q. What are your hobbies?

Mine was paper crafting.
Then he gave me a paper and asked me to make something out of that paper.

Q. What is C++?

Q. Diff b/w C and C++.

Q. What is polymorphism in java.

Q. Apply object oriented technology in your project?

Q. Can be relocate?

HR interview:

Q. Tell me about yourself?
Told.

Q. From where you are?

Q. Any questions.
Guys please prepare a nice question to ask. It shows your sincerity.

Q. Again he ask any question?
After that He did handshake with me.

After 2 days I got the result and I was selected.

====================================
Process of selection:

For Java and .Net candidates.
1) Technical program execution: Take your time from 10 am to 5 pm. Execute
Question 3 out of 5.
2) Technical face to face.
3) HR face to face

===
1) Question in Technical,
Note: I do not remember the whole question because its too too LONG so, I have
written in my own way, I have mentioned the input and output and logic .
Questions
Q 1) Rajiv has 3 sons. On the "Happy new year" Rajiv give bonus to his son. He
has coin from 1 - 50. He can give any combination to his sons. Now, your task to

do one thing: collect the coin and distribute to all the three(3) sons in equal amount. If they get equal amount then print Happy new year otherwise print Sad new year.

Input:

a) 1, 2, 3

output: sad new year

Explanation: we cannot divide the coin.

1st son: 1 => Amount = 1

2nd son: 2 => Amount = 2

3rd son: 3 => Amount = 3

here, the amount is not equally divided to all three(3) sons i.e. 1, 2, 3. So, sad new year

b) 1, 3, 17, 6, 4, 3, 4, 1, 7, 5

output: happy new year

Explanation: The 3 son get the following coins

1st son: 1, 3, 5, 7, 1 => Amount = 17

2nd son: 6, 4, 3, 4 => amount = 17

3rd son: 17 => amount = 17

here, the amount is equally divided to all three(3) sons i.e. 17 so, Happy new year.

Q 2) Fibonnacci series questions. Chennai Express movie character name dont need to remember. Print the following series:

1, 3, 8, 20, 50, 123.

Logic I Solved: print 1 as it is

now, 1 * 2 + (1 + 0) = 3

3 * 2 + (1 + 1) = 8

8 * 2 + (3 + 1) = 20

20* 2 + (8 + 2) = 50

50* 2 + (20 + 3) = 123

Q 3) A class teacher asked to X that Y and Z have 10 Apples. And Y has 2 more apples than Z. X said that Y has 6 Apples and Z has 4 apples then, teacher asked by increasing the number of apples and X answered the value correctly. But, he couldnot

for larger number. Now, its your turn to answer correctly.

Input:

Total apples Y and Z : 10

Total more Apple Y has more than Z : 2

Output:

Y has : 6 Apples

Z has : 4 Apples.

===><==> I don't remember the below two question properly <=====>

Q 4) A girl X is so beautiful so all guys want to date her. So, She called all the guy to the garden and she asked them to collect the

card from the bucket which contains the number of check post where they have to move. And She decided to date the guy who will meet with her at check post. For each meet with Girl, boy will get Only one point. Check post can be repeated. Boy collect the Max point date her.

Input: /* Here 0 is dead end */

Beautiful Girl X : 1, 2, 4, 3, 5, 0

Boy Y: 2, 3, 4, 0

output:

max point obtained by Boy Y is : 1

Explanation:a) X and Y start their race from 1 and 2 respectively.

b) Both X and Y now move to 2 and 4 respectively.

c) Both X and Y now move to 4. Here, both meet together so, Boy Y get One(1) point.

d) Both X and Y now move to 3 and 0 respectively.
But Boy is done because he reached to dead end(0).
Now girl alone move to dead end(0) from 3 to 5 and finally to 0.

Q 5) It was based on the Game. X and Y play the game. Length of Rectangle is "l" And Breadth is "b". Cut the square of size(a) from the rectangle touching the three sides of the rectangle. The final guy will win the game.Note: size of square is same i.e. for each player.
I got Rejected because I coud not solve the first Question. I tried Alot. If anyone please help me with answer.
==
U can go and attend the drive, it is going right now.
All the best.
